Please we need your full participation and support as you sign this petition and tell others and print more please give it out and please do donate towards this project.

Dear Prime Minister ,

1. We thank the Labour Government that Changed the Cannabis to Class B from class C drug through our campaign for the sake of the youth and community safety.
- 2..Prison to be a place of dicipline and training,not an holiday camp (Prisoner to be taken out to work twice in a week with special tags and this will reduce crime}as no One would like to go back to prison and re offended.And community service encouraged
- 3.All key workers to be tested of class A & B drug , if found positive ,they should Resign {IF there is no customers for drug dealers ,their would be no suppliers {NO DRUGS NO CRIME}Enough is enough
- 4.Police should be trained on how to deal with young people &Families. Searching and Imprisonment and having many police on the street and giving drugs to drug addicts is not the solution , but toLove , Listen to the youth of what they really need .
5. Government to invest more on young people by creating more after School / Holiday's activities and power of descipline to be returned to the parents for family Value and Government to work with Faith groups and to provide maximum Security for the lives of any witness that came forward against any murderer .
{COMMUNITY PARTICIPATION IS HIGHLY NEEDED } THANKS
